**Commissioner for Patents**

The reply filed on 2/17/2009 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): A species was not elected for a lipid conjugate, lipid conjugate solvent, nicotinic compound and alcohol found on page 2 paragraph 2 of the Restriction/election Requirement. Applicant is required to elect a specific species of the above constituents.

In response to Attorney Dunn's comments on PCT Practice and species election, the Attorney is referred to MPEP 1850 III, Section B ("So-called "Markush Practice"), which states: "When dealing with alternatives, if it can be shown that at least one Markush alternative is not novel over the prior art, the question of unity should be reconsidered by the examiner." The US patents 6022561, 3645390, 3890333 and 3642549, demonstrate that each species as recited above, lack a special technical feature in view of the prior art.

See 37 CFR 1.111. Since the above-mentioned reply appears to be bona fide, applicant is given ONE (1) MONTH or THIRTY (30) DAYS from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to LYNDSEY SHAAK whose telephone number is (571)270-7676. The examiner can normally be reached on Monday to Friday 8:00 am to 5:00 pm EST. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Patrick Nolan can be reached on 571-272-0847. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
